I love this book because it is about my favourite band, The Beatles which is widely regarded as the most influential band in Western popular music. Moreover, the comic-book-style makes the story more interesting. The illustrations vividly show the key events in the hero's history. It is easy to read and it is full of fun! I will recommend this book to someone who wants to know more about famous people around the world.

The story began as Johnny and the Moondogs who are the teens who loved music than anything. Although they were not very good, they kept working at their craft and performing on stage wherever they could find. It is not easy when you want to read some facts or history of famous people.

This book tells the great things The Beatles achieved in an interesting way. It shows how hard-working and persistent the members are. I think this book is not only a biographical note about The Beatles, but also a story about perseverance. It is an excellent example of "NEVER GIVE UP" and the importance of TEAMWORK!
